LEI700 TOUCH 21"

A range that never age, upgradable with 3 selection panels to be chosen between **Easy, Smart, Touch.**

The touch revolution.

Touchscreen is the technological solution used in many areas such as ATMs, fast food, smartphone, able to provide to the consumer a new feeling experience.

Interactive Vending.

- Selection interface with monitor 21,5" and touch screen technology able to play multimedia contents.
- Appealing and intuitive menu with picture products, descriptions and ingredients for a consumer awareness.
- Digital signage to emphasize the customer experience with the publication of videos, news or special communications.
- Sales promotion: up to 6 preset menu (a hot drink + a snack product) and up to 6 snack products displayed when the machine is combined in Master/Slave with a snack machine.
- Easily management of multimedia contents and configuration thanks to the innovative platform WinConfigTouch of Bianchi, the new Windows application.

Communication and customization.

- EXTENSIVE OFFER.** Up to 5 different product families can be configured, each associated with up to 6 selections of single items or 6 menus with one beverage and one snack when the machine is combined in master/slave.
- CUSTOMIZABLE PROMOTIONS.** You can create specific promotions for products, or menus in the case of Master/Slave combinations, making them immediately attractive and selectable.
- NUTRITIONAL QUALITIES.** Selections can be customized by organizing them in product families associated with common nutritional attributes. In each family the user can select the product desired and view all the nutrition information.
- HIGH QUALITY VIDEO.** The LCD technology used in our monitors will accommodate high quality images and promotional or information videos, drawing the user even more powerfully into the consumer experience.
